18 MEN LOSE JOBS AS CWA PROJECTS BEING CURTAILED

Local Reduction Is Part of National Plan to Reduce Relief Program

135 BEING AIDED HERE

Number on City Reservoir Work and in Forestry Reduced by Office

Upland today felt the effects of the CWA retrenchment policy.

Eleven men, out of a total of 114 employed on local CWA projects will be discharged on Thursday, seven persons working out of the local office on government forestry projects were discharged last week.

In announcing the reduction in the personnel of the unemployment relief list, Avery S. Allen, secretary of the Upland chamber of commerce and civic association, said that the San Bernardino office of the federal unemployment relief program, has the authority to select persons to be dropped from the rolls. Information concerning all persons being employed on CWA work is in San Bernardino.

What is being done here in retrenchment is also being done in communities throughout the nation. The reduced number of persons is part of the plan to gradually taper off the number on relief projects. Additional reductions are expected from time to time.

The CWA crews are working on the city reservoirs and on road projects throughout the district.

District Managers P.-T.A. Plan Annual Election In March

With 25 members attending, the board of managers of the Fifth district California Congress Parents and Teachers, met Friday in Colton and made plans for the March district membership meeting at which an election of officers will be held.

The meeting was conducted by Mrs. Fred Arth of Redlands, district president, and a number of reports were made and routine business, concerning the closing of the year's affairs, was transacted. Founder's day also was observed during the meeting.

The March meeting will be held in Redlands on Friday, March 23, and Mrs. Roy Robertson of Redlands, chairman of the nominating committee, will present the slate of candidates, the election and installation taking place during the meeting, the installing ceremony being conducted by Mrs. Charles H. Turner of Redondo Beach, first vice-president of the state organization and one of the candidates for state president.

The various annual reports will be made at that time and Mrs. Claude W. Tenny of Laguna Beach, formerly of Redlands, who is state chairman of social hygiene, will speak on the work of her department.

Attending the Colton meeting from Upland was Mrs. F. L. Warburton, district motion picture chairman, who spoke briefly on better motion pictures and recommended "Carolina" as the most desirable picture of the recent releases, giving it high rating as a picture for all ages.

Other district officers attending from Ontario Council, P.-T. A., were Mrs. Minnie Emmons, first vice-president; Mrs. J. A. Curlett, recreation chairman; Mrs. C. L. Cochran, Ontario Council president, and Mrs. E. W. Parks, publicity chairman, all of Ontario; Mrs. Nellie Steelman, treasurer; Mrs. F. B. Williams, Founder's day chairman, and Mrs. H. E. Fietz, parent education chairman, all of Fontana.

25 Schools Respond In Invitational Meet

Twenty-five high schools have officially accepted the Chaffey invitation to be represented here April 14 for the annual track and field meet.

Much interest has been shown in the event, Ernest W. Fischer, high school principal and meet manager, said today.

Crash Victims Share In $150 Fund

Mrs. Wortham, Mrs. Kronen Aided

Rather than be sent to jail and let his victims suffer, Frank Yuen, San Bernardino Chinaman, was today given a suspended sentence of 90 days in the county jail, when it was explained to Judge George R. Crane that he had agreed to pay $150 damages.

The case concerned an automobile accident on Foothill boulevard near Euclid avenue Jan. 16, with Mrs. J. J. Wortham, Mrs. William Kronen, Mrs. James C. Thompson and Mrs. Beatrice Daniels and Mrs. Roy Liles being injured. Mrs. Wortham suffered a fracture of the leg and Mrs. Kronen was injured internally, the other women receiving only slight cuts and bruises.

Mr. Yuen, through his attorney, pleaded guilty to the charge of causing the accident. It was then explained that a fund of $150 had been created and Mrs. Wortham had been paid $110 and Mrs. Kronen $40. This plan of settlement had been previously approved by the two women who had filed damages. Judge Crane then sentenced the driver to 90 days in the county jail, this being suspended for a year.

Mrs. Daniels, Mrs. Thompson and Mrs. Liles did not appear in the case today because their injuries were only minor. Damage claims, however, had been filed by the other two women. On the basis of the injuries suffered, the $150 fund was divided between the two.

This case is unusual in that the ordinary traffic case results in the negligent driver being sentenced or fined, with the victims left to get what benefits they can later through civil action.

CHAFFEY MAY PLAY TWICE THIS WEEK

Tigers Face Chino Friday Afternoon; Southland Title Race Underway

Chaffey high school championship quintet will play one game and perhaps two games this week.

It all depends on how the Tigers fare against Chino Friday afternoon in the Pomona college gymnasium. If Chino upsets the Tigers, that'll be the end for this season. If Coach Karl Kaiser's C. B. L. champs maintain their winning style, the Tigers will play at 8 p. m., Friday.

The Chino-Chaffey game will be at 3 p.m., the first of the zone's games toward the Southern California championship. Pomona and Bonita high schools play at 4 p. m. Winners of each game will play in the evening.

While the four schools in this zone will be playing, quintets in other zones will be meeting. This zone winner will play the winner in the Riverside-Redlands district in on of the play-offs the following week. Within three weeks after starting the elimination tournament will have been completed. Championship games will be played in Los Angeles March 9 and 10.

Chaffey defeated Redlands in the local gymnasium Friday night to cop its sixth successive basketball title, the score being 27 to 22.

John Meek, guard, tossed in long ones to salt away the title. His total for the game was 13, lacking only one of the combined total of his team mates.

Chaffey sophomores suffered a defeat from San Bernardino in the play-off for the prep title. The fives will meet in the county seat tonight for the second of the series.

DR. NAKAGAWA TO BE HERE THURSDAY

Free Public Forum on Japan At Woman's Club House Thursday Nnght

Appearing under the auspices of the International Interests section of the Upland Woman's club, Dr. Ken Nakagawa of the department of Oriental studies in University of Southern California, will conduct an open forum Thursday evening, Feb. 22, in the clubhouse to which every interested man and woman in the Upland district is invited.

Plans for the meeting, as announced by Mrs. Alfred R. Kipp, chairman of the section, include a 6 o'clock dinner to be served for a moderate price, reservations to be made with Mrs. Royal V. Ward, telephone Upland 159.

There will be no admission charge for the forum and anyone may attend, those who do not wish to attend the dinner, coming in later for the forum, which will open at 6:45.

Japan, with special reference to the Japanese economic and political situation will be the subject presented by Dr. Nakagawa.

At this time when world-wide events and attitudes are of such vital importance, the Japanese viewpoint as expressed by a man of Dr. Nakagawa's ability is expected to be of much interest to all men and women who are giving serious thought to the problems of the day.

This is the first of a series of such free public forums being arranged by Mrs. Kipp for the two-fold purpose of stimulating interest in the study of world affairs and of providing an authentic source of information concerning the situations in other countries, with the general aim of furthering international understanding. At each of the forums planned, an able representative of the country to be considered will be presented.

Mrs. Kipp particularly stresses the fact that forums will be free to the public and the attendance of both men and women is desired.

Upland Barbers Hear Mussell Explain Code

A number of the Upland barbers were in San Bernardino last night hearing County Attorney Stanley Mussell explain the state barber code as it applies to San Bernardino county.

The code provides for keeping shops open from 8 a. m. to 6 p. m., except on Saturday, when they may remain open until 7 p. m. Individual barbers, however, may work only 48 hours, except in one-chair shops, where there is a 52-hour maximum.

The code fixes wages at $20 a week, with 60 per cent of all money taken in over $32. Men working Saturday only receive $6 and 60 per cent of their "take" over $9.

Eight holidays will be observed —New Year's day, Washington's birthday, Memorial day, July 4, Labor day, Armistice day, Thanksgiving and Christmas.

Prices are: Haircut, 50 cents; haircut for children under 12, 40 cents; women's neck trim, 40 cents; shave, 25 cents.

Upland barbers who attended the meeting are J. H. Hartzog Perry Long, D. M. Kirkwood, E. A. Detmers and Robert Barton, and we are informed all local shops are now operating under terms of the code.

NATIONAL LEADER OF LEGION COMING TO DISTRICT SOON

Ontario Likely to be Meeting Place for Ed Hayes on March 2

BIG ASSEMBLY PLANNED

Thomas Howarton's District Wins Sixth in Membership Rating

Ed Hayes of Illinois, national commander of the American Legion, is coming to this district next week and will probably speak at a mass meeting of ex-service men in Ontario.

On basis of membership in the American Legion the various districts are being favored with a visit by Mr. Hayes. The 21st district, of which Thomas E. Howarton of Upland is commander, was sixth in the state. He will make one appearance in the district and the post having the greatest percentage of its membership quota will be honored in being chosen as the host.

In announcing Mr. Hayes' coming, Earl E. Marsh, local Legionnaire, said that in the figures so far available Ontario was given the best chance of getting the honor. From the state and national headquarters the various posts are given a mebership quota. On the basis of realizing this quota districtss and post are rated, with Mrs. Hayes' itinerary being planned accordingly.

The national leader of the ex-servicemen's group will be in California Feb. 27, 28, March 1 and 2. His appearance in this district will probably come March 2.

BIDS FOR ONTARIO DISPOSAL PROJECT ARE GIVEN STUDY

H. A. Teget, Ontario, Is One of Three Low Contractors on Estimate

COUNCIL TAKES ACTION

Actual Work on Plant Expected To Be Started Within Short Time

One Ontario contractor is among the three low bidders in the construction of the Ontario sewage disposal plant, with final decision in awarding the work left to the officials of the federal public works fund, which is providing a large share of the finances for the project.

The Ontario city council reviewed the bids last night and recommended that the successful bidder be chosen from the firms submitting the three lowest bids. James Noon of Baldwin Park was the low bidder, with a figure of $65,793. H. A. Teget, Princeton street, Ontario, was second low, his estimate for building the project being $68,850. Shannahan Bros., Los Angeles, were next in line with a figure of $80,801. F. J. Moran, cement contractor, Ontario, also submited a bid.

Work on the project, which will serve both Upland and Ontario, is expected to get under way within a month. Contract is expected to be left in the next week or two, with actual construction to start as soon as possible.

Under the terms of the contract, Ontario is to serve Upland in sewage disposal until 1940.

Alta Loma Engages Singers as Benefit for Boy Scout Activities

Men's Glee club of Pomona college will appear in the Alta Loma school at 8 p.m., March 2, in a program for the benefit of the Boy Scouts in that community.

Arthur Bridge, who is the Alta Loma scoutmaster, announced the coming of the club and of the fine program to be given by the group.

Proceeds over the actual cost of presenting the program will go to the Boy Scout fund. Mr. Bridge has been head of the troop for five years and during that time he and other civic leaders have placed scouting on a very extensive basis.

A Colonial tea will be held Thursday afternoon by the Cucamonga-Alta Loma Woman's club when the members meet for their bi-weekly session at the home of Mrs. W. J. Parsons on North Hellman avenue. Mrs. H. L. Salisbury and Mrs. J. W. McKee will serve as co-hostesses with Mrs. Parsons.

Difference In Administration and Politics Shown by Wiley Mather

By W. W. Mather

The necessary subservience of the President to the needs of party control and perpetuation would not be so serious if it were not for the greatest failure of the American people in their political life—the failure to distinguish between politics and administration. The long continued existence of the frontier, and the ideas of democracy which is developed, together with the emphasis on business and a business career, seem to be largely responsible for this failure.

The idea of democracy possessed by many voters is that of short terms, rotation in office, small salaries, checks and balances, and a simple governmental job requiring only ordinary ability and common sense, the possession of all true Americans. This is in striking contrast to the exactions recognized in business. Further, the insecurity of political tenure under this idea of democracy has afforded for ambitious youth a career in business and not in politics. There is one exception. A man might become a professional politician. But cartoonist and popular appeals through press and platform have given a picture of a politician which does not appeal to many youths. Hence, generally the best brains of the country have shunned politics.

The parties are so organized on a basis similar to that of our official government that each party requires a small army of leaders in state, city, county, as well as in national government. In addition there is required a large army of ward and precinct workers and

Constable's Office Stirs Candidates

Judge Crane Will Seek Re-Election

With a new constable for Upland township to be elected to succeed J. F. Sawyer, and with Judge George R. Crane to be a candidate for re-election as justice of the peace, much interest is expected to be centered in the campaigns for these offices at the August 28 balloting.

Mr. Sawyer will not be a constable candidate due to his aspirations to become sheriff of the county He has held the local position for 32 years, this to be the first election for this office without his name appearing on the ballot Due to this fact, several persons are known to be sizing up the situation

If Mr Sawyer is elected sheriff —and his chances are getting brighter all the time—a new chief of police will be appointed by the city council. For 28 years the council has appointed the same person police chief as was constable. Whether this policy will continue remains to be seen.

Judge Crane said today he plans to be a candidate for re-election. Since 1908 he has been justice of the peace. When the city was incorporated he was appointed city judge by the council, getting the justice of the peace job later. In the succeeding elections he has been returned by the voters.

No other candidates have officially announced their candidacy for this office, but rumor has included several names as prospective aspirants.

Those elected Aug. 28 will serve for four years

ROTARIANS HEAR EXCELLENT TALK

Roy Newton, Member Ontario Club, Gives Splendid Advice for Young Men

Today's meeting of the Upland Rotary club should have been open to the young men of the community, as Roy D. Newton, member of the vocational service committee of the Ontario Rotary club, gave a talk that would have been of immense value to them. Gardiner W. Spring was program chairman and introduced the speaker.

Newton's talk was an answer to the question, "What would you say to a young man to help him keep his balance?" The answer included many ideas that would be of use to young people starting out in the world, among those stressed being personal and mental integrity and stability, unselfish service, self discipline. The speaker's idea of an ideal young man is one who reads much but does not believe all he reads, one who listens but does not believe all he hears; he should learn early to face the difficulties of life. He should not be a "nut" upon any subject, not even his religion or vocation. If there was ever a time when young men should keep their heads clear and their minds open it is now, said Mr. Newton.

Club members were glad to hear a very encouraging report on the condition of their fellow member, Chas. V. Barr, who has been ill at his home for almost two months and that he will probably be able to be at the meetings before long.

Interesting Sermons At Nazarene Revival

The revival meeting at the Upland Nazarene church is reported to be gathering momentum with each succeeding service. Evangelist Lon Woodrum, once in training for the Catholic priesthood, later an atheist and then dropping into the criminal class, is bringing a Gospel ministry of different type than the average evangelist.

His opening sermon on Sunday morning was a masterpiece of gospel substance and eloquence. In the evening he spoke on "In the Hands of the Receiver," drawing his subject from the words, "This man receiveth sinners." His message last night was on the subject, "Religion—Passive, Negative and Positive," a unique exposition of the ethics of the Sermon on the Mount. He speaks tonight on "How Do You Know You Are a Christian?"

EARL MARSH FIRST TO ENTER CONTEST FOR CITY COUNCIL

Candidate Announced For One of Three Places To Be Filled April 9

JOHNSON MAY RUN AGAIN

Manker, Mathews Unlikely To Seek Re-election On Governmental Board

Earl E. Marsh today started the local political ball rolling with the announcement that friends were circulating a nominating petition to place his name on the ballot at the city council election April 9.

Three places on the city's governmental board are to be filled, with it likely that at least two of the present councilmen will not be candidates for re-election. A. H. Johnson said yesterday that he is uncertain about being a candidate. For 20 years he has served the city with the voters giving him more votes than any other candidate at the election four years ago.

F. H. Manker and Elmer Mathews have indicated they do not plan to become candidates.

Mr. Marsh is prominent in American Legion circles. He is a citrus grower, and during his many years residence in Upland has been active in civic and community affairs. He is a member of the city planning commission.

The present city council has served efficiently with the tax rate and expenses being greatly reduced in recent years. Mr. Manker will have completed four years' service on the council when his term ends. Mr. Mathews will have served about three years. He was appointed to fill a vacancy caused by the resignation of William Atchley, and two years ago was elected by the voters to the council.

Two Phases of Taxation

There are two ways in which taxation may become confiscation:

First, by increasing public debt and expenditures to the point where businesses and individuals are unable to pay—to where all profits vanish into hands of tax collectors.

Second, by lowering ability of industry to pay, through governmental policies which stand in the path of expansion, development and the attraction of private capital.

Government—federal, state, county, municipal—is now guilty on both counts.

By the end of the fiscal year the federal debt will have broken all records. Most local governments are in the same position as the federal, Upland being one of the few exceptions in this regard.

That is the tax situation so far as mounting costs are concerned. From the standpoint of penalizing business, the vista is little better.

Hundreds of millions of dollars have been spent in putting government into competition with private industry—industry that pays taxes to maintain government, thus relieving the individual taxpayer of a great tax load he would otherwise have to carry.

Heavy property taxes, at a time when the national income is about 50 per cent under the 1929 peak, have been the direct cause of thousands of home and mortgage foreclosures. States, counties and cities have taken title to property which is now idle and produces no further tax revenue. The people who once owned it simply could not pay.

Recovery plans are threatened with failure because of climbing taxation, with inevitable discouragement of investment and employment unless there is tax relief.

We've had another demostration that convinces us that better times are on the way back—the National Orange show at San Bernardino. As is the annual custom of the Orange show officials, the newspaper fraternity of Southern California was entertained at dinner Saturday and attended the show. We really marveled at the increase in attendance over last year. On the same day in 1933 we do not believe there were more than half as many in attendance, but last Saturday the buildings and grounds were literally thronged with people. There also seemed to prevail a different atmosphere—that depressing feeling was absent and instead those present seemed in a happy and optimistic mood. We believe this condition can be hailed as a criterion of better conditions in this part of the country. People were spending their money, the concession stands were busy and it was a gathering more like "old times" than we have seen in several years. And—by the way—we believe the Orange show is beautiful this year as we have ever seen that classic. The officers evidently sensed the better and more optimistic feeling among the people and have put on a more expensive program than for a number of years. If you haven't been over to the big show you will enjoy its beauties. The horse show is an additional feature and attracts many each day, there being over 200 equine aristocrats entered in the various classes.

—o—

Our neighbor, Tobe Larson of the Claremont Courier, "takes a crack" at those slaves of fashion—our women. Tobe was out to a party the other night and "there entered a young lady wearing a dress that swept the floor." And so he laments: "A few years ago when even the older women wore dresses that reached only to the region of the knees they gave as an excuse, not style, but freedom of movement, and spoke of it as the emancipation of women. No longer were they to serve as sweepers of sidewalks or supplanters of carpet sweepers. And now they who would be stylish are at it again." Neighbor Larson doesn't like some things about the girls of today, either. Says he: "And some of the younger ones wear a pancake hat smeared over on one side of the head." Which causes us to remark: How can anyone be such a back number as the Claremont editor? That's what we get thrown at us when we make similar remarks to our modern wife and daughters.

—o—

Another evidence of better conditions is shown in the reverse action on the part of Hemet people toward the Ramona pageant. After deciding not to give the play this year the matter was opened again, with the result that the association upon making a canvass for a guarantee of $5,000 with which to stage the production met with such a response that over $6000 was pledged—and the play will be open to the people of the country at the customary time this year, the latter part of April and first of May, three week-ends.

—o—

Here's an old one that has been revived—but it will be new to many: While Mark Twain was editor of a Missouri paper a subscriber wrote him, saying he had found a spider in his paper and asking Mark whether this was a sign of good or bad luck. The following was the reply: "Old subscriber: Finding a spider in your paper was neither good or bad luck. The spider was merely looking over your paper to see which merchant is not advertising, so that he can go to that store, spin a web across the door and lead a life of undisturbed peace ever afterward."

—o—

If the government wanted to get into this business of carrying the air mail why didn't they get into it in the first place? Why wait to take it over until a time when it will probably cripple an industry? Anyway, it appears that the government is going into competition with private business more and more as time goes on. And what they don't take over they insist upon running to suit their own ideas. Government competition is taking an unfair advantage of the individual enterprises.

—o—

John King, publisher of the Hemet News and a prospective Democratic candidate for governor of California, has already begun to make alibis. Says he in last week's issue: "It's much easier to tell the man in office he is wrong than to run for office and do the thing as it should be done." Why should John start apologizing before he gets the nomination? To say nothing about being elected.

—o—

Perhaps that fellow who ran wild and slashed a number of people around that broadcasting station in Los Angeles recently was not so crazy after all. Don't you ever have the inclination to do something terrible to some of the talent (?) you run into when you are running up and down the radio dial?

San Antonio Library Club Meeting Held

With the staff of the Ontario public library serving as hostesses, a meeting of the San Antonio Library club was held Saturday morning at Padua Hills, the meeting being followed by an enjoyable luncheon.

Mrs. Willis Kerr of Claremont, president of the club, conducted the meeting and the roll call of libraries was responded to by the librarians naming their favorite reference books.

The program began with a review of Jessie Fauset's "Comedy: American Style," by Miss Sarah M. Jacobus of the Pomona public library, and a report was made by Mrs. Lavina Tenley of the Pomona school library of a list of 50 books suggested by Pomona junior high school pupils when asked to name the books a pupil should have read before entering high school. This list, given by the pupils without preparation, contained a large percentage of high class standard literature.

Mrs. Raymond Brooks of Claremont gave several delightful child impersonations and Scott Odell, youthful author of Pomona, whose book, "Woman of Spain," will soon be published, told of the work and the time expended in research in the preparation of his book and of the trials of an author when he places himself at the mercy of his publishers.

Art Address Enjoyed by Hospital Group

She dwelt at some length upon the work of the cubists, futurists, and impressionists, also discussing recent mural paintings by Mexican artists. The address was very much enjoyed by the large number of Auxiliary members in attendance.

Administration and Politics Discussed

(Continued from Page One)

lieutenants in the more than 100,000 precincts in the United States. Patronage is the magic cement which holds together this army. Patronage has been encouraged by the plea that a man is entitled to subordinates in sympathy with his policies and by the ignoring of the changed conditions brought about by the disappearance of the frontier and the growth of specialized and technical services in government. Thus the postmaster General in the President's cabinet, the head of the only purely governmental business represented in the cabinet, is the politician chiefly instrumental in securing the Presidential prize for the successful candidate. Further, the department is thus crippled in its purely business functions through the removal of postmasters purely for partisan reasons, although a local post office is a business house as truly as a dry goods or grocery store.

The ease with which the partisans get around the feebly administered civil service rules in this department and other governmental agencies is well known. The chief function of the postmaster general is to keep the Presidential machine in good running condition for a re-election and in the second term (if one) for continued control in party decisions. Ex-President Hoover, for example, is still a factor to reckon with for control of the Republican party, and 40,000 positions outside the civil service have been created, it is said on good statistical evidence, by the present Democratic control.

But a great revolution has been going on for forty years. The frontier has disappeared. Social and economic functions have been forced upon the government. To administer these functions a large army of trained employes is necessary, together with trained leadership. In the fields of local government, schools and judiciary, we have recognized this development to some extent by making the offices in some states non-partisan. California elects all these officials on a non-partisan basis, both state and local. The rise of the city manager in municipal government as a trained expert, called in from the outside to administer the business side of government and to conduct the routine of every day services now called "administration", is further evidence of progress. We are still half a century or more behind the rest of the civilized world in this respect. Only as we come in national affairs to recognize the growth of administrative functions, now being tremendously augmented by the recovery administration (and much of this increase in governmental functions will be permanent) and demand as a people the divorcing of administration from the spoilsmen, can we make the President serve the whole people and not primarily the party machines.

Chaffey's "A" team was high in lemons with 581 points. Arthur Bridge scored 197—only three less than perfect, in lemons and David Ward scored 193.

In the "B" competition, Wallace Taylor made a total score of 750, this being the fourth highest individual score.

On the local judging squads, coached by Charles Perrin and Harry Alter, were: "A" squad, David Ward, Robert Groff, Arthur Bridge, Jr., William Smale, Donovan Schowalter and Ellis Oxley; "B" squad, Wallace Taylor, Elmer Tate, Kenneth Franklin and A. McQuire.

Exclusive location where you can enjoy the quiet of home life, away from the turmoil or traffic and business, with the social advantages of the Country club.

Nowhere can you buy such beautiful large lots with their magnificent view of the mountains and valley, at so low a price. We have made the price for the next 60 days so low that you can afford to buy and own two of these lots for practically the price of one, thus affording you the opportunity to own a small estate at a cost of one-fourth what it would have cost you a few years ago. The number of these lots is limited at this price and as such, with the new homes being built and other improvements added, are bound to rapidly increase in price. Therefore, to those of you who are actively interested in acquiring a homesite, either to build on now or in the future, you cannot fail to be interested in our 60 day offer.

One lot for $700 and the second lot for only $100 additional; making a total of only $800 for both. Extremely liberal terms can be arranged to suit your convenience.

So if you wish to participate in the development of the finest residential district in this community, do not fail to communicate with us immediately while you can still have a liberal choice of locations. Remember, two large 80 foot view lots for only $800. There is no question but the extra lot will, if you decide in the future to dispose of it, pay for the entire cost of both lots. SEE US AT ONCE. TODAY.

WOMEN HAVE PUT MEN BACK TO WORK...

Look for the BLUE STAR SEAL *of the American Gas Ass'n Testing Laboratories*

An unprecedented rush of orders followed the announcement of a special sale of modern gas ranges—equipped with clock-control—at record-breaking low prices.

It was announced that—during this sale—these clock-equipped ranges could be purchased for a limited time at a price equal to the cost of such ranges without the clock control.

A rush of orders resulted.

In many instances, delivery has been delayed until a fresh supply of ranges could be rushed from the factory.

Trade associations report that this has made increased work for great numbers of men.

The sale of thousands of such ranges in Southern California means more work for men—and less work for the women! Instead of spending all their time in the kitchen these wives and mothers will now have time for other activities and interests.

Have you seen these new ranges?

If you have—either at your dealer's or the gas company office—you probably have ordered one for your own kitchen. If you haven't, we suggest that you do so at once—before this special offer expires.

At the gas company office you will see new models of Roper and Magic Chef—ranges which we have merchandised for years—but these are equipped with a clock-control which cooks for you automatically.

At your dealer's you will see other good ranges also equipped for this new method in automatic cookery.

Either through your dealer or the gas company you may have one of these modern ranges on very easy terms.

Don't wait!
